Lightroom file sizing and export

Before export, size image in Lightroom.

Because there is more than one way to access the export dialog box in Lightroom: Your choices are:

- File > Export
- Right Click > Export
- Export Button (Only in Library Module)

This window will open:

Make sure you fill in all the appropriate fields below

	Output Sharpening Sharp	pening Off
	Metadata All Metadata, Remove Location Info, Remove	erson Info
	► Watermarking No	watermark

Photoshop file sizing

Set your crop tool to size. Make sure you use WxHxResolution (make sure you use all three spaces) and not Ratio. Save it as a tiff with your file labeled properly.
