A local graphic designer is designing a brochure for a local business. They need a work portrait to help market the business, one that tells the story about the business. The final project is a brochure using a square image

This assignment is to create a portrait of someone in their work environment. The portrait needs to have a connection to the subject's job, using their work space and tools as props to make an exciting portrait. This is a formal portrait that could be used for marketing with your subject looking towards the camera.

Pay close attention to the work environment making sure no elements distract from the subject
